

## Ultra Thin Bluetooth Keyboard for iPad Mini

### HOW TO SETUP BLUETOOTH KEYBOARD

*PLEASE NOTE: THERE WAS A TYPO IN THE INSTRUCTION MANUAL. WHEN YOU ARE CHARGING THIS DEVICE, YOU WILL SEE A RED LIGHT AND WHEN YOU ARE CONNECTING OR POWERING ON THE DEVICE, YOU WILL SEE A BLUE LIGHT.*

1. On the bottom right side of the keyboard you will notice the following icons:

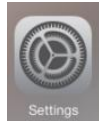

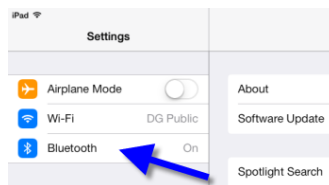

2. To turn on these items, you will need to locate the switch and button on the bottom right side of the keyboard directly by these icons.

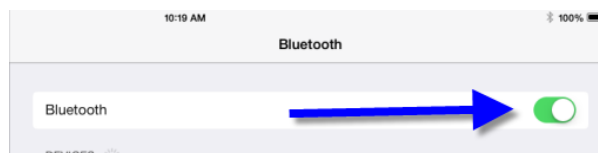

\*Note the Power is on top and is a **Switch** that moves forward and backwards, whereby the Bluetooth is a **Button** that can only be pushed in. **DO NOT TRY AND MOVE THE BUTTON UP OR DOWN.**

3. Next, prepare your iPad Mini to connect to the keyboard.

- a. Turn on your iPad mini so that you can access the "SETTINGS" icon.  Tap this icon once.
- b. This will open up the Settings Screen, whereby you are looking for the word "Bluetooth" which should be on the right side of your screen. Click on the word "Bluetooth".

- c. Make sure the Bluetooth is "On" if "Off" then slide the on screen button to the right.

- Next turn on the Keyboard by using the power switch on the bottom right side of the keyboard. You will notice a blue light turned and then quickly goes away by the Bluetooth icon. This is normal and is showing the keyboard turned on but **DOES NOT** mean it is in pairing mode.
- Next, push on the Bluetooth button on the keyboard until you see a blinking light next to the Bluetooth icon.

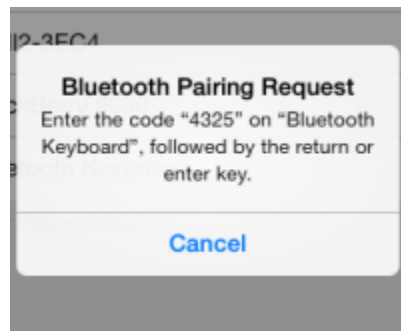

**This indicates the unit is ready to pair.**

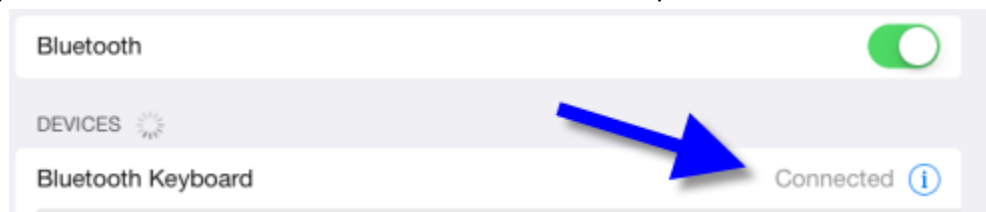

- Once the keyboard is sending a Bluetooth signal, you will see the name “BLUETOOTH KEYBOARD” on the list of available Bluetooth devices on your iPad mini. \*Note you are still not paired with this device.\*

- Click on this line and follow the instruction prompt that shows on the screen. (This will be an iPad mini prompt asking you to type a 4 digit code on the Bluetooth keyboard (**not the iPad mini**) followed by clicking on the “return or enter” key.

- If done correctly, you will see the word “Connected” on the Bluetooth Keyboard line.

You are now ready and able to use your new BLUETOOTH KEYBOARD. If you are having any further issues with connecting to this device, don't hesitate and contact customer support at Digital Gadgets.
